31    </select>
32    <br><br>
33    <textarea name="Talkboutit" rows="8" cols="80"></textarea><br>
```

Subject

The subject of this lab was to create a form on our website which includes passwords, radios, checkboxes and other input fields.

Difficulties

I had difficulties when it came to creating the radio. Also had difficulties trying to figure out how to direct the information that was sent in the form

Results

I enjoyed this lab and the skills that I am developing from this class. I still feel like there is a lot of practice that I have to do where I can get to the point where I don't have to look at W3schools every 3 seconds for advice. Nonetheless, I am glad that there is a vast ocean of resources available that will allow me to become a better coder.

The subject of this lab was to create a form on our website which includes passwords, radios, checkboxes and other input fields. I had difficulties when it came to creating the radio. Also had difficulties trying to figure out how to direct the information that was sent in the form. For some reason I was unable to upload the changes I made on github. I enjoyed this lab and the skills that I am developing from this class. I still feel like there is

a lot of practice that I have to do where I can get to the point where I don't have to look at W3schools every 3 seconds for advice. Nonetheless, I am glad that there is a vast ocean of resources available that will allow me to become a better coder.

Brooke's Lab Results

The lab was very easy for me. Started with the same stuff as usual for all the previous labs. After that it was just adding the inputs. For any questions I had I just referred to the fiddle page that had all of the inputs in there already. Here are the screenshots of my process and the results. Everything is working as intended.

Index of lab 6 at end

Complicated HTML

This lab I learned how to use input fields. I created a text box, checkbox, radio, password, and submit button.

Type Full Name:

What is your favorite hobby?

☐ Check if you like boating

Do you prefer skiing or wakeboarding?

☐ skiing

☐ wakeboarding

Enter your email password:

Challenges

I had no challenges with this lab.

Results

Everything is working well and looks how I intended.
