

Aaron Borum

Lab 4

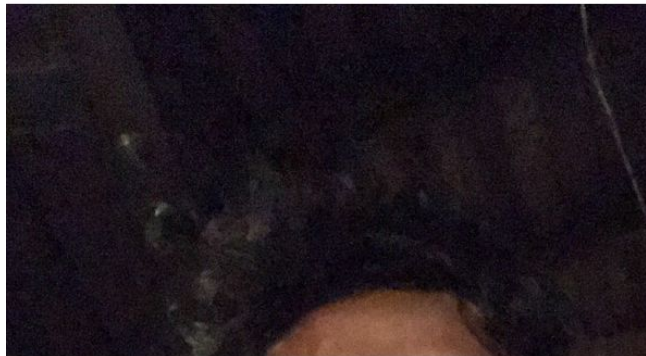

I was having a lot of trouble with this lab mainly due to the fact that I was working by myself. I was not able to get the file online. I got the 404 error code once I tried to open my github link. I need to focus more on these assignments and actually working with a partner. The work has been overwhelming from my classes but this is what I signed up for so I will figure it out.

Aaron Borum

I am a ceramic artist from Salinas, California. I started taking classes at Hartnell College and now have a studio in my garage where I run my business

I have been feeling overwhelmed with all the school work from this semester but this is what I signed up for. Looking forward to a great semester

Through this lab, I had challenges closing the tags and also uploading images because I was forgetting to put the .jpg at the end. I am learning a lot from these mistakes. I believe that I am not putting enough effort towards coding. I need to focus more on these assignments.
